

CNC Process Operator

- Entry level role with scope to learn and develop
- Working with cutting edge machinery
- Dupont shift rotation providing 7 consecutive days off every month

We are looking for two (2) CNC Process operators who are reliable, energetic and want to expand their machine shop knowledge

About AW Fraser

We are a leading global OEM (original equipment manufacturer) of copper alloy machinery parts. We are an advanced recycler sourcing recycled metals (99% of raw material) from around the world and engineering them into copper alloy and finished parts.

Our processes encompass melting, alloying, casting, heat treating, extrusion and automated CNC machining. Our customers are global blue-chip manufacturing companies such as Caterpillar, Komatsu, Mercury Marine, Yamaha Marine, and General Electric. We have parts in service in every country on planet earth.

About the Role

The role will require you to

- Demonstrate a positive attitude, enthusiasm and a willingness to learn
- Be physically fit
- Demonstrate attention to detail, accuracy and ability of work independently

To be the perfect fit for this role you will bring:

- A working knowledge of a Machine Shop environment
- An understanding of health and safety practices
- Enthusiasm for learning new machining techniques

In return, you'll receive a competitive salary (in line with your experience) and be part of an innovative and supportive team.

In accordance with our workplace safety policy, the recruitment process will include a pre-employment drug and alcohol test.

AW Fraser operates the DuPont shift system that provides 7 consecutive days off every month.

If this interests you, apply now.

Due to Covid -19 we are only accepting applications from those currently residing in New Zealand.

As this is an entry level CNC Operator position the ideal applicant should have some knowledge of working in a Machine Shop Environment. experience can be limited as training will be given to those who have a great attitude and enthusiasm to learn.

Salary Rate is dependent upon skills & experience

In accordance with our drug and alcohol-free workplace safety policy, the recruitment process will include a pre-employment drug test.

We operate Day, Afternoon and Night Shifts, with the opportunity to move between these to suit individual requirements

If you are interested in developing new machining techniques and would like to contribute to the growth and development of a major New Zealand exporting company then please apply now by sending your CV and covering letter to:
