

Industrial Maintenance Fitter and Turner

- Challenging and interesting role
- Working with cutting edge machinery
- Excellent hourly rate and working conditions

About the AW Fraser

We are a leading global OEM (original equipment manufacturer) of copper alloy machinery parts. We are an advanced recycler sourcing recycled metals (99% of raw material) from around the world and engineering them into copper alloy and finished parts.

Our processes encompass melting, alloying, casting, heat treating, extrusion and automated CNC machining. Our customers are global blue-chip manufacturing companies such as Caterpillar, Komatsu, Mercury Marine, Yamaha Marine, and General Electric. We have parts in service in every country on planet earth.

About the Role

We are searching for a skilled Fitter and Turner to join our established Maintenance team.

The role will require you to

- Have a high-level ability to operate a manual lathe and milling machine.
- Ability to machine parts from sample pieces or from engineering drawings.
- Service equipment in the Foundry, Extrusion Department and CNC Machine Department, ensuring machines run at the intended capacity to avoid any down-time due to break-downs or improper operations.
- Set and maintain a "Right First Time" standard in maintenance with a focus on equipment reliability.
- Install new or refurbished equipment, testing to ensure that new machinery is ready to be implemented smoothly

To be the perfect fit for this role you will bring:

- Strong mechanical knowledge and competence with high level fitting tasks, machining, and non-structural welding
- Experience maintaining and servicing hydraulic and pneumatic equipment, rams, pumps, cooling, and induction furnaces.
- A passion for maintaining a safe work environment
- Effective communication, relationship management and team working skills

In return, you'll receive a competitive salary and be part of an innovative and supportive team.

If this interests you, apply now.

This is a fulltime permanent position. Due to Covid -19 we are only accepting applications from those currently residing in New Zealand

The application form will include these questions:

- Which of the following statements best describes your right to work in New Zealand?
- How many years' experience do you have as a Fitter turner?
- What's your expected annual base salary?
- Are you willing to undergo pre-employment drug and alcohol screening?
